

INTERACTIVE WATER ATTRACTION AND QUEST GAME

ABSTRACT OF THE INVENTION

An interactive water attraction and system of game play is provided wherein the gaming is
5 carried out within a pool, water park or water attraction. The game utilizes electronically
identifiable objects, cards, bands, tags and/or the like, to provide an interactive game play
experience generally simulative of a computer adventure game experience. Play participants are
challenged to work and cooperate with other play participants to find identified objects, clues or
other information and to use the objects, clues or information to solve various puzzles or problems
10 that present encumbrances inhibiting players' advancement in the game. Each play participant
possesses a unique RFID band, card or the like, that electronically identifies the play participant and
enables the play system to award and track points or other rewards to successful play participants
individually or working with other play participants as a team. The game in accordance with the
invention provides the intellectual challenge and excitement of a computer adventure game, but
15 with tangible interactives, physical challenges, and social interaction.
